INDIANA UNIVERSITY-PURDUE UNIVERSITY INDIANAPOLIS

## IUPUI EMPLOYEE VACCINATION AUTHORIZATION FORM

In order to charge an IU department for vaccines or titers needed for employment, authorization from the supervisor must be obtained. No vaccines will be given without authorization. A supervisor must complete the lower portion of this form including an account number in order to bill for the service(s). **This form must be presented at IUPUI Health Services before any vaccines are given or titers drawn.**

### VACCINATIONS:

**MMR (MEASLES, MUMPS & RUBELLA)**

**VARICELLA**

**TDap**

**HEPATITIS B**

- The hepatitis B Vaccine series includes a total of three vaccines: an initial, the second one at one month, and the last one is given 6 months after the first.
- A titer is recommended to be drawn 4-6 weeks after the last vaccine is administered.
- A booster may be needed in some cases to insure immunity.
- OSHA regulations require employers to provide the vaccine to employees whose work may include potential exposure to blood and body fluids or the virus.

### TITERS

**VARICELLA**

**MMR**
