

Indiana University GME Health Requirements 2017

For the protection of employees and the patients with whom they will come in contact during training, all entering GME personnel must meet established health requirements. **IMMUNIZATION DOCUMENTATION IS DUE BEFORE YOUR START DATE!**

Please print the Immunization Checklist form, ensure all required and applicable documentation is attached, and send the documents to IUPUI Campus Health: healthsv@iupui.edu

PLEASE NOTE - When corresponding via email, include Last Name, First Name, and Department in the Subject Line

Immunization Checklist Form:

Dated-Timed-Signed clinical records MUST be attached for each vaccine or lab test to be considered VALID.

- ✓ **Hepatitis B** – The vaccine is administered in a series of 3 injections at 0, 1, and 6 months. Persons admitted at least 6 months prior to start date must provide documentation of completion of the series **OR** proof of an immune Hepatitis B antibody titer. Persons admitted later must at least provide documentation of beginning the series prior to start date. All must show evidence of having begun the series at the time this form is due.
- ✓ **Measles, Mumps, Rubella (MMR)** – Proof of 2 vaccinations at least 28 days apart **OR** proof of an immune antibody titer for EACH disease is required. *If you have received individual vaccinations for Measles, Mumps, or Rubella, proof of 2 vaccinations for each individual disease is required.*
- ✓ **Tetanus/Diphtheria and Acellular Pertussis (Tdap)** – One Tdap (first available 2005) is required. Td boosters every 10 years thereafter.
- ✓ **Varicella (Chicken Pox)** – Proof of 2 vaccinations at least 28 days apart **OR** proof of an immune Varicella antibody titer is required. Stating history of the disease as a child is NOT proof of immunity.
- ✓ **Tuberculosis** – New applicants must have two completed Tuberculin skin tests (TST), formerly referred to as a PPD, if there is no documented proof of a positive TST in the past. The placement of the TSTs must be ≥ 7 days apart. Step 1 must be within 18 months of start date and step 2 must be after May 1, 2017. One interferon gamma release assay (IGRA) completed after May 1, 2017 may be substituted for the TSTs. Also, if there is a known history of BCG vaccination, an IGRA blood test is preferred over TST placements.

The following **must** be included on the TST documentation in order to be considered valid:

1. **DATE** and **TIME** of Placement
2. **DATE** and **TIME** of Reading (must be within 48-72 hours of placement)
3. Results recorded in “mm”
4. Placement/Read/Documentation signed by certified medical personnel

EXAMPLE OF VALID DOCUMENTATION:

Date Placed	Time Placed	PPD Lot #	Exp Date	Location	Placed By:	Date Read	Time Read	Results (mm)	Read By:
02/16/13	1252	123456	12/2015	RFA	MER, RN	02/18/13	1327	0mm	MER, RN
07/01/13	1501	123456	12/2015	LFA	RAF, RN	07/04/13	1246	0mm	TPW, LPN

If there is history of a positive TST or IGRA in the past, documentation of the positive result and evidence of any chest x-ray and medical treatment received must be provided. Also, for a newly positive TST or IGRA, evidence of a chest x-ray is required along with documentation of any medical treatment prescribed. A TB Symptom Questionnaire located on the IUPUI Campus Health website (<http://health.iupui.edu/employees/forms.html>) must also be completed and submitted with your documentation.

FYI – All GME personnel will be required to participate in annual academic year TB Surveillance, TB Respirator FIT Testing, and Flu vaccination while employed with IU School of Medicine.

You will be contacted via email once your documentation is received and reviewed!

Graduate Medical Education (GME) Immunization Checklist 2017

Name (**PRINT LEGIBLY**): _____ Date of Birth: ____/____/____
LAST FIRST MI Mo Day Year

Gender: M / F ID#: _____ Phone: (____) _____

Employment Start Date: ____/____/____ Department: _____ Email: _____
Mo Day Year

Declaration Statement

IUPUI Campus Health and the IUSM require you provide documentation of the following vaccinations before your start date. **Failure to submit the appropriate documentation may delay or prevent your ability to start your position.** We highly recommend you submit your documentation as early as possible. We are not responsible if you submit documentation at the last minute that does not meet requirements.

****Copies of clinical records MUST be attached for each vaccine dose or lab test ****

Hepatitis B: THREE doses are required **OR** a positive antibody titer (HBsAb)

Vaccinations: #1 #2 #3 **OR** Evidence of Immunity: Hepatitis B Titer

MMR (Measles, Mumps, Rubella): TWO doses are required at least 28 days apart **OR** a positive antibody titer (IgG) for each

Vaccinations: #1 #2 **OR** Evidence of Immunity: Measles Titer Mumps Titer Rubella Titer

Tdap (Tetanus/Diphtheria and Acellular Pertussis): ONE dose is required. Td boosters every 10 years thereafter.

Vaccination: #1

Varicella (Chicken Pox): TWO doses are required at least 28 days apart **OR** a positive antibody titer (IgG)

Note: Having the disease as a child is not proof of immunity

Vaccinations: #1 #2 **OR** Evidence of Immunity: Varicella Titer

- New applicants must have two completed Tuberculin skin tests (TST) if there is no documented proof of a positive TST in the past. The placement of the TSTs must be ≥ 7 days apart. **DATE/TIME of TST placement, DATE/TIME of TST read within 48-72 hours, and results recorded in "mm" MUST be recorded on the attached documentation or it is not valid!** One IGRA blood test (T-Spot or Quantiferon Gold) completed after May 1, 2017 may be substituted for the TSTs.
- If there is a known history of BCG vaccination, an IGRA blood test is preferred over TST placements.

TB Screening: TWO PPD skin tests are required if no history of positive TST **OR** ONE IGRA blood test

Step 1: (not >18 months before start) Step 2: (after May 1, 2017): **OR** ONE IGRA (after May 1, 2017)

- If there is history of a positive TST or IGRA in the past, documentation/evidence of the positive result and evidence of any chest x-ray and medical treatment received must be provided. Also, for a newly positive TST or IGRA, evidence of a chest x-ray is required along with documentation of any medical treatment prescribed. A TB Symptom Questionnaire must also be completed (<http://health.iupui.edu/employees/forms.html>).

Positive History for TB Screening: If documented history of positive TST or IGRA, documentation/evidence of the positive result, Chest X-Ray, and completed TB Symptom Questionnaire are required

Positive PPD skin test or IGRA:
 Follow Up Treatment: Chest XR Antibiotic Therapy (INH) taken? Yes No TB Symptom Questionnaire
