

**IU School of Health and Human Sciences
Nutrition and Dietetics Requirements for Matriculation 2018**

For your protection and that of patients with whom you will come in contact during training, all students must meet established health requirements. **REFER TO PROGRAM REQUIREMENTS FOR DUE DATE OF IMMUNIZATION DOCUMENTATION!**

Please print the Immunization Checklist form, ensure all required and applicable documentation is attached, and send the documents to IUPUI Campus Health via healthsv@iupui.edu

*PLEASE NOTE - When corresponding via email, include Last Name, First Name, Program, and Graduation year as the Subject

1. **Immunization Checklist Form:**

Copies of clinical records MUST be attached for each vaccine or lab test to be considered VALID.

- ✓ **Hepatitis B** – The vaccine is administered in a series of 3 injections at 0, 1, and 6 months. Students admitted at least 6 months prior to the beginning of classes must provide documentation of completion of the series **OR** proof of an immune Hepatitis B antibody titer. Students admitted later must at least provide documentation of starting the series prior to attending class. All students must show evidence of having begun the series at the time this form is due.
- ✓ **Measles, Mumps, Rubella (MMR)** – Proof of 2 vaccinations at least 28 days apart **OR** proof of an immune antibody titer for EACH disease is required. *If you have received individual vaccinations for Measles, Mumps, or Rubella, proof of 2 vaccinations for each individual disease is required.*
- ✓ **Meningitis ACWY**– One vaccine is required for those aged 21 and under.
- ✓ **Meningitis B** – Two vaccines are required for those aged 23 and under.
- ✓ **Tetanus/Diphtheria and Acellular Pertussis (Tdap)** – One vaccine (first available in 2005) is required.
- ✓ **Tetanus Booster (Td)** – One booster is required every 10 years.
- ✓ **Varicella (Chicken Pox)** – Proof of 2 vaccinations at least 28 days apart **OR** an immune Varicella antibody titer is required. Having the disease as a child is not proof of immunity unless written documentation from treating physician is provided.
- ✓ **Tuberculosis** – Prior to beginning classes, new students must have two completed Tuberculin Skin Tests (TST), if there is no documented proof of a positive TST in the past. The placement of the TSTs must be ≥ 10 days apart. Step 1 must be within 18 months of matriculation and step 2 must be after May 1, 2018. One interferon gamma release assay (IGRA) completed after May 1, 2018 may be substituted for the 2 TSTs. Also, if there is a known history of BCG vaccination, an IGRA blood test is preferred over TST placements.

The following **must** be included on the TST documentation in order to be considered valid:

1. DATE and **TIME** of Placement
2. DATE and **TIME** of Reading (*must be within 48-72 hours of placement*)
3. Results recorded in “mm”
4. Placement/Read/Documentation signed by certified medical personnel

EXAMPLE OF VALID DOCUMENTATION:

Date Placed	Time Placed	PPD Lot #	Exp Date	Location	Placed By:	Date Read	Time Read	Results (mm)	Read By:
07/01/13	1501	123456	12/2015	LFA	RAF, RN	07/04/13	1246	0mm	TPW, LPN

IF history of a positive TST or IGRA: Documentation and evidence of a chest x-ray and medical treatment must be provided. A TB Symptom Questionnaire located on the IUPUI Campus Health website (<http://studentaffairs.iupui.edu/health-wellness/student-health/forms/index.shtml>) must also be completed and submitted with your documentation.

FYI – All students will be required to participate in annual academic year TB Surveillance and Flu vaccination while attending IU.

You will be contacted via your IU email once your documentation is received and reviewed.

IU School of Health and Human Sciences – Nutrition and Dietetics Student Immunization Checklist 2018

Name (PRINT LEGIBLY): LAST FIRST MI Date of Birth: Mo Day Year
Gender: M / F / T Student ID#: Phone:()
Program Start Date: Mo Year Graduating Class of: IU Email:

Declaration Statement

IUPUI Campus Health and the School require you to provide documentation of the following vaccinations. Failure to submit the appropriate documentation may delay or prevent your ability to start your program. We highly recommend you submit your documentation as early as possible. We are not responsible if you submit documentation at the last minute that does not meet requirements.

Copies of clinical records MUST be attached for each vaccine dose or lab test

Hepatitis B: THREE doses are required OR a positive antibody titer (HBsAb)

Vaccinations: #1 #2 #3 OR Evidence of Immunity: Hepatitis B Titer

MMR (Measles, Mumps, Rubella): TWO doses are required at least 28 days apart OR a positive antibody titer (IgG) for each

Vaccinations: #1 #2 OR Evidence of Immunity: Measles Titer Mumps Titer Rubella Titer

Meningitis ACWY: ONE dose is required for those aged 21 and under.

Vaccination: #1

Meningitis B: TWO doses are required for those aged 23 and under.

Vaccinations: #1 #2

Tdap (Tetanus/Diphtheria and Acellular Pertussis): ONE dose is required from 2005-forward.

Vaccination: #1

Td Booster (Tetanus/Diphtheria): ONE dose is required every 10 years.

Vaccination: #1

Varicella (Chicken Pox): TWO doses are required at least 28 days apart OR a positive antibody titer (IgG)

Having the disease as a child is not proof of immunity unless written documentation from treating physician is provided.

Vaccinations: #1 #2 OR Varicella Titer OR Documented History of Disease

- New students must have two completed Tuberculin skin tests (TST) if there is no documented proof of a positive TST in the past. The placement of the TSTs must be ≥ 10 days apart. DATE/TIME of TST placement, DATE/TIME of TST read within 48-72 hours, and results recorded in "mm" MUST be recorded on the attached documentation or it is not valid! One IGRA blood test (T-Spot or Quantiferon Gold) completed after May 1, 2018 may be substituted for the TSTs. If there is a known history of BCG vaccination, an IGRA blood test is preferred.

TB Screening: TWO TSTs are required (IF no history of positive TST) OR one IGRA blood test may be substituted

Step 1: (not >18 months before matriculation) Step 2: (from May 1, 2018 forward) OR an IGRA (from May 1, 2018 forward)

IF history of a positive TST or IGRA: Documentation and evidence of any chest x-ray and medical treatment must be provided. A TB Symptom Questionnaire located on the IUPUI Campus Health website (http://studentaffairs.iupui.edu/health-wellness/student-health/forms/index.shtml) must also be completed and submitted with your documentation.

Positive History for TB Screening: If documented history of positive TST or IGRA, documentation/evidence of the positive result, Chest X-Ray, and completed TB Symptom Questionnaire are required

ANY Positive TST skin test or IGRA: Follow Up Treatment: Chest XR TB Treatment? Yes No TB Symptom Questionnaire
