

IU School of Health and Rehabilitation Sciences – Nutrition and Dietetics Requirements for Matriculation 2017

For the protection of students and the patients with whom they will come in contact during training, all entering students must meet established health requirements. **REFER TO PROGRAM REQUIREMENTS FOR IMMUNIZATION DUE DATES!**

Please print the Immunization Checklist form, ensure all required and applicable documentation is attached, and scan the documents to IUPUI Campus Health: healthsv@iupui.edu

PLEASE NOTE - When corresponding via email, include Last Name, First Name, Program, and Graduation Class in Subject Line

Immunization Checklist Form:

Copies of clinical records MUST be attached for each vaccine or lab test to be considered VALID.

- ✓ **Hepatitis B** – The vaccine is administered in a series of 3 injections at 0, 1, and 6 months. Students admitted at least 6 months prior to the beginning of classes must provide documentation of completion of the series **OR** proof of an immune Hepatitis B antibody titer. Students admitted later must at least provide documentation of starting the series prior to attending class. All students must show evidence of having begun the series at the time this form is due.
- ✓ **Measles, Mumps, Rubella (MMR)** – Proof of 2 vaccinations at least 28 days apart **OR** proof of an immune antibody titer for EACH disease is required. *If you have received individual vaccinations for Measles, Mumps, or Rubella, proof of 2 vaccinations for each individual disease is required.*
- ✓ **Tetanus/Diphtheria and Acellular Pertussis (Tdap)** – One Tdap (first available 2005) is required. Td boosters every 10 years thereafter.
- ✓ **Varicella (Chicken Pox)** – Proof of 2 vaccinations at least 28 days apart **OR** proof of an immune Varicella antibody titer is required. Stating history of the disease as a child is **NOT** proof of immunity.
- ✓ **Tuberculosis** – Prior to beginning classes, new students must have two completed Tuberculin Skin Tests (TST), formerly referred to as a PPD, if there is no documented proof of a positive TST in the past. The placement of the TSTs must be ≥ 7 days apart. Step 1 must be within 18 months of matriculation and step 2 must be after May 1, 2017. One interferon gamma release assay (IGRA) completed after May 1, 2017 may be substituted for the TSTs. Also, if there is a known history of BCG vaccination, an IGRA blood test is preferred over TST placements.

The following **must** be included on the TST documentation in order to be considered valid:

1. **DATE** and **TIME** of Placement
2. **DATE** and **TIME** of Reading (must be within 48-72 hours of placement)
3. Results recorded in “mm”
4. Placement/Read/Documentation signed by certified medical personnel

EXAMPLE OF VALID DOCUMENTATION:

Date Placed	Time Placed	PPD Lot #	Exp Date	Location	Placed By:	Date Read	Time Read	Results (mm)	Read By:
02/16/13	1252	123456	12/2015	RFA	<i>MER, RN</i>	02/18/13	1327	0mm	<i>MER, RN</i>
07/01/13	1501	123456	12/2015	LFA	<i>RAF, RN</i>	07/04/13	1246	0mm	<i>TPW, LPN</i>

If there is history of a positive TST or IGRA in the past, documentation of the positive result and evidence of any chest x-ray and medical treatment received must be provided. Also, for a newly positive TST or IGRA, evidence of a chest x-ray is required along with documentation of any medical treatment prescribed. A TB Symptom Questionnaire located on the IUPUI Campus Health website (<http://health.iupui.edu/employees/forms.html>) must also be completed and submitted with your documentation.

FYI – All students will be required to participate in annual academic year TB Surveillance and Flu vaccination while attending IU School of Health and Rehabilitation Sciences.

You will be contacted via email once your documentation is received and reviewed!

IU School of Health and Rehabilitation Sciences – Nutrition and Dietetics Student Immunization Checklist 2017

Name (PRINT LEGIBLY): _____ Date of Birth: ____/____/____
LAST FIRST MI Mo Day Year

Gender: M / F Student ID#: _____ Phone:(____) _____

Program Start Date: ____/____/____ Graduating Class of: _____ Email: _____
Mo Day Year

Declaration Statement

IUPUI Campus Health and the School require you to provide documentation of the following vaccinations.

Failure to submit the appropriate documentation may delay or prevent your ability to start your program.

We highly recommend you submit your documentation as early as possible. We are not responsible if you submit documentation at the last minute that does not meet requirements.

****Copies of clinical records MUST be attached for each vaccine dose or lab test ****

Hepatitis B: THREE doses are required OR a positive antibody titer (HBsAb)

Vaccinations: #1 #2 #3 OR Evidence of Immunity: Hepatitis B Titer

MMR (Measles, Mumps, Rubella): TWO doses are required at least 28 days apart OR a positive antibody titer (IgG) for each

Vaccinations: #1 #2 OR Evidence of Immunity: Measles Titer Mumps Titer Rubella Titer

Tdap (Tetanus/Diphtheria and Acellular Pertussis): ONE dose is required. Td booster every 10 years thereafter.

Vaccination: #1

Varicella (Chicken Pox): TWO doses are required at least 28 days apart OR a positive antibody titer (IgG)

Note: Having the disease as a child is not proof of immunity

Vaccinations: #1 #2 OR Evidence of Immunity: Varicella Titer

- New students must have two completed Tuberculin skin tests (TST) if there is no documented proof of a positive TST in the past. The placement of the TSTs must be ≥ 7 days apart. ***DATE/TIME of TST placement, DATE/TIME of TST read within 48-72 hours, and results recorded in "mm" MUST be recorded on the attached documentation or it is not valid!*** One IGRA blood test (T-Spot or Quantiferon Gold) completed after May 1, 2017 may be substituted for the TSTs. If there is a known history of BCG vaccination, an IGRA blood test is preferred over TST placements.

TB Screening: TWO PPD skin tests are required if no history of positive TST OR ONE IGRA blood test

Step 1: (not >18 months before matriculation) Step 2: (after May 1, 2017): OR ONE IGRA (after May 1, 2017)

- If there is history of a positive TST or IGRA in the past, documentation/evidence of the positive result and evidence of any chest x-ray and medical treatment received must be provided. Also, for a newly positive TST or IGRA, evidence of a chest x-ray is required along with documentation of any medical treatment prescribed. A TB Symptom Questionnaire must also be completed (<http://health.iupui.edu/employees/forms.html>).

Positive History for TB Screening: If documented history of positive TST or IGRA, documentation/evidence of the positive result, Chest X-Ray, and completed TB Symptom Questionnaire are required

Positive PPD skin test or IGRA:
Follow Up Treatment: Chest XR Antibiotic Therapy (INH) taken? Yes No TB Symptom Questionnaire
